

INDONESIA ARCADIA GAMING LEAGUE

Privacy Policy

What we collect, why, and what you control

This Privacy Policy explains what Indonesia Arcadia Gaming League ("IAGL", "we", "us") collects when you create an account and take part in our tournaments, how it is used, and the choices you have. It applies to the IAGL site and every tournament we run.

1. What we collect

- **Account details** — your email address, username, and password. Your password is stored only as a secure hash; we never see or keep the password itself.
- **Contact details** — your phone number, and your Instagram handle if you add one.
- **Gamer IDs** — the console and PC IDs you provide (PSN, Xbox, Steam, Epic, Riot) so opponents can find you in-game.
- **Profile picture** — the avatar image you upload, if any.
- **Payment proof** — the receipt image or PDF you upload when registering for a paid tournament.
- **Tournament activity** — which tournaments you enter, your registration status, match results and scores, and your season points.
- **Technical data** — a session cookie (`msl_session`), the browser description sent when you sign in, and sign-in timestamps.
- **Google sign-in** — if you use it, the Google account identifier and the email address on that account.

2. Why we use it

- To create your account, keep you signed in, and keep the account secure.
- To run tournaments: verify your payment, place you in a bracket, record results, and rank you.
- So admins and opponents can reach you to agree a match time.
- To show your public player profile and leaderboard position.
- To send a password reset link when you ask for one.

3. What other people can see

Your **username, avatar, main game, wins and losses, trophies and season points** appear on the public leaderboard and player directory. Your email address, phone number, gamer IDs, payment receipts and password are **never** shown publicly.

4. Payment receipts

A receipt you upload is visible only to IAGL admins reviewing your registration. Please hide or black out anything on it that is not needed to confirm the payment — such as your full account number or your balance.

5. Who we share it with

- IAGL admins, who need it to run the tournaments you enter.
- Our email provider, only to deliver a password reset message.
- We do not sell your data, and we do not share it for advertising.

6. How long we keep it

- **Account and tournament records** — while your account exists, so standings and history stay accurate.
- **Sessions** — 12 hours, or 30 days if you chose "Remember me". Signing out deletes that session straight away.
- **Password reset links** — 1 hour, and they stop working the moment they are used.

7. How we protect it

- Passwords are stored hashed, never in readable form.
- Session and reset tokens are stored hashed too, so the value sitting in your browser cannot be looked up in our database.
- Resetting your password signs out every device, which locks out anyone who had your old session.

8. Your choices

- Edit or correct your details any time from your Profile page, including removing your avatar.
- Ask us to delete your account and personal details. We may keep match results that past standings depend on, with your name removed where we can.
- Ask what we hold about you.

9. Younger players

IAGL is not aimed at children under 13. If you are under 18, get a parent or guardian's permission before taking part or paying an entry fee.

10. Changes and contact

We may update this policy; the version and date at the top of each page will change when we do. For any question or request about your data, contact an IAGL admin.

IAGL tournaments are community events played for fun. We ask for the least we need to run them fairly — nothing more.
